

CITY ROLLS UP 11,000 FOR WAR

Second Registry of Manpower Is Holiday, Orderly and Patriotic.

(Continued From Page One.)

The business center, with the 2nd field artillery players, led by Lieut. E. J. Lebeck, toured the precincts south of the tracks, and the 6th cavalry band, Sgt. Edgar J. H. Bush, went from precinct to precinct north of the tracks.

One Store Made to Close.

As a general rule stores were closed for the day, their managers desiring not to do anything to interfere with the patriotic demonstrations of the day. There was one conspicuous exception, that of the Woolworth store, on San Antonio St. General registrar Dale, police chief Charles E. Pollock and police captain P. H. Phoenix all contributed their efforts before the manager of this store was convinced that the patriotic thing to do was to close his doors.

Patriotic Maps Help.

Maps furnished by the draft board were of great assistance to registrars at the various precincts. These showed the city divided into precincts. There was not a registration place in the city where a great many men are allowed for registration who belonged in another precinct.

Franklin Has Long Line.

Franklin school had a staff of 27 registrars and they were all kept busy. All morning long lines of men in double rank lined the sidewalks. Many applied at this district who had to be sent elsewhere to register. It was estimated that 15 men could be registered there each two minutes.

Mexicans And Chinese Respond.

Ten registrars and six clerks at 111 South Oregon street were kept constantly busy by the steady stream. It was calculated that 500 had registered there at noon. Half of this number were Mexicans. No confusion was noticeable. Several native born Chinese were among those registered.

As old, white-haired Mexican, who is his age at 50, applied for registration and when informed that he did not have to register replied: "Well, I may be old, but I am not a Mexican, and I might as well register now and have done with it."

Others to the mammoth proportions of the building the crowd at Liberty hall was not so numerous.

One Is Down And Out.

"Woe be to me who signed his registration as he signed his registration."

Suit Over \$20 Calf Runs Into Thousands.

Bellington, W. Va., Sept. 12.—A dispute over a \$20 calf, which began two years ago and litigation over which has cost both parties thousands of dollars, was settled today.

Another \$1000 will be spent. The calf has disappeared—it is now a cow.

Asserts Woman Operator Sent Data To Enemy

Took Information From Telegrams, Is Charge; To Be Intended.

New York, Sept. 12.—Information has been obtained that Miss Wanda Kreutinger, a Postal Telegraph company operator, who was taken into custody here yesterday, has transmitted, direct to the German government, important information regarding munition ships, obtained from cablegrams and telegrams which passed through her hands, according to a statement last night by federal officials.

Recent Activity Alleged.

The transmissions, the statement said, were made in 1914 and 1915, but within the last six weeks, it is asserted, Miss Kreutinger has furnished similar information "to persons she believed to represent the German imperial government." The operator has been under surveillance for some time.

Transferred To New York.

She has been employed by the Postal company for 15 years, and was an operator in the Chicago office until the outbreak of the war, when she obtained a transfer to the New York office.

According to the statement, Miss Kreutinger received no money for her services, doing the work because of her love of the home land.

A presidential warrant for her arrest has been requested, it was announced.

Registration Card at Liberty Hall.

"Here I blow out of New York for the day, and have to register down here in Texas. Hully Gee! If de army or de navy or de marine corps would say, 'say kid to de woman who was registering him,' you skits would never have to worry about being persecuted."

"Fight, why, listen, he I used to be der champion on Halstead street and when I turned into Hysteria or Canal and 'Little Italy' you couldn't see the people der de smoke dey make gill in outer me eye. New de con's got me. So what's de use."

Consul Comes To Help.

Consul E. C. Dow, at Juarez, closed the American consulate there and his entire staff came to El Paso to assist in the work of registration. Mr. Dow was accompanied by his wife and daughter, and by his secretary, Miss L. J. Burdette, also consul.

Registration at Highland Park school. Most of the clerical force of the consulate were distributed around the various registration places.

Little News From County.

Up to noon no definite reports had been received by the county draft board as to how the registrations were going outside the city precincts. Radioactive, however, that the response had been good and that each county precinct had registered its full quota.

Mexican Exodus Checked.

The exodus of Mexican laborers to Mexico for fear they would be inducted into the American army was practically checked by the proclamation issued in Spanish by Brig. Gen. J. J. Hombrook, district commander, who assured all Mexican citizens the act of desertion would not induct them into the army.

At the Mexican general consulate it was stated that four applications for passports had been made today, although more than 1000 were issued during the past ten days.

Negro Registrant's 54 Year Old Nephew Is Dependent, He Claims

When Dimmittus Ong, negro, applied for registration at 110 South Oregon street he stated in emphatic terms that he claimed exemption. "On what grounds?" the registrar asked.

"I've got a dependent tub support," replied Ong.

"Wife or mother?"

"No, sir."

"Child or children?"

"No, sir."

"Aged father, perhaps?"

"No, sir; it's a nephew."

"Nephew?" said the registrar. "How old is he?"

"Fifty-four."

German Labor Leader Calls Gompers False

Copenhagen, Denmark, Sept. 12.—Carl Rudolph Legien, president of the German federation of trades unions, speaking at a meeting of the federation's executive committee, recently accused president Gompers, of the American federation of labor, of inability to labor's cause of deterring "to quench the spark of inclination toward peace, which has flamed up in the English laboring class."

The federation commission endorsed Legien's remarks, and ordered their publication.

INDEPENDENCE FOR CZECHS NOW APPROVED BY CLERGY

Washington, D. C., Sept. 12.—Despite bitter resistance of the Austrian government, which sought to prevent publication of the declaration of the Czech deputations, in favor of an independent Czechoslovak state, all of the clergy of the Bohemian dioceses have united in endorsing the declaration.

Because of its influence, the action of the clergy, as reported today in cable dispatches, created a profound impression in Austria-Hungary, and led to strong denunciation by the Vienna newspapers.

SLACKER RAIDS WILL BE CONTINUED, SAYS GREGORY

Washington, D. C., Sept. 12.—Full responsibility for the recent slacker raids in New York and adjoining cities has been assumed by Attorney General Gregory, who promises continuance of the roundup, but without use of soldiers, sailors and members of the American protective league to make arrests.

PRIVATE CONCERN MAY FISH OFF INDIANS' RESERVATION

Washington, D. C., Sept. 12.—Reversal of federal court decision regarding the Alaska Pacific fisheries, an Oregon corporation, from fishing in the vicinity of Annette Island, an Indian reservation off the coast of Alaska, was filed today in the supreme court. The government contended the waters in that vicinity, under federal law, were reserved for the use of the Indians. The company argued that the president had no authority to prevent fishing in public waters.

HOBBY PROCLAIMS SEPT. 16 TO BEGIN TEXAS CLEANUP

Austin, Tex., Sept. 12.—Gov. Hobby today issued a proclamation designating the week beginning Monday, Sept. 16, as statewide cleanup and salubrious week. The offices and organizations comprising the Texas Federation of Women's clubs will outline the method of holding salubrious.

Europe Will Furnish Bareback Riders Child Labor Laws Hamper Training

Pretty Rider Runs Extensive Stock Farm to Provide Animals for Act.

THE laws in this country forbidding child labor will forever put Europe in the forefront in providing the best circus riders of the world, declares Ella Bradna, one of the world's foremost equestriennes, coming here with Barnum & Bailey on September 25.

"There are but few American girls bareback riders and it is due to our laws, no doubt, to the fact that there is no apprenticeship system here, because the laws forbid performance by children at an age where in Europe they would be making professional appearances in the ring," she said.

"That is the real reason that the majority of circus riders are Europeans."

Miss Bradna has adopted the system of her forebears to procure animals of sufficient beauty and training to appear in her acts. She owns an extensive stock farm on Long Island, and there she spends most of her time when the circus is not on the road. All the horses used in both her riding and trained animal acts were raised on this farm and trained by Miss Bradna personally.

In addition to training horses for her own use in the circus, she also supplies horses for other bareback riders in the various circuses, and the fact that a steady is a "Bradna horse" means that it represents the best that can be procured in way of breeding and perfect training.

In an interview, Miss Bradna declared that she would rather have her horses than the best automobile under.

"The work of an equestrienne is not taught in a day," declares Miss Bradna, "and it is a well known fact that foreign women take up bareback riding when very young. Circus riders in foreign countries are in one sense of the word born riders, as the work is really one that is handed down from generation to generation."

At the meeting of the retail grocers' association held Wednesday night in the chamber of commerce building, Robert C. Dornhecker, federal food inspector, announced that the reason many Mexican grocers in the city had not received their food certificates was because an oversight had been made at Houston in state commission's office. Mr. Dornhecker said that more than 15 letters containing sugar certificates and addressed to Mexican grocers had been returned to his office unclaimed, and he urged that those grocers who have not received their certificates call and get them. During the months of July and August certificates for 12,500 pounds of sugar had not been received by the retailers.

The wholesalers have been requested by the Houston office to send in a delinquent list, but only one retailer has responded.

Take It One Lot.

Mr. Dornhecker cited a case where a grocer had applied for and received 300 pounds of sugar as his allotment, and when he inspected the place he found the man had two lemons and a bottle of ketchup and a box of soap. The sugar was taken away from him.

There will be no more special permits for sugar, he said.

These not having sugar certificates will receive no sugar. Mr. Dornhecker advised the grocers to honor no more certificates, claiming that if they did El Paso would probably be reduced to a state of half pound per mouth.

J. B. Watson, president of the association, presided.

RAMSEY TRIES FOR Q. M. JOE.

W. K. Ramsey, deputy district food administrator, is going to apply for a commission in the United States army, he announced Wednesday. Mr. Ramsey was one of the El Paso men who were invited by the war department to try for commissions in this branch of the service.

BASSETT TO SANTA MONICA.

C. N. Bassett, district food administrator, left today night for Santa Monica, Cal. Mrs. Bassett and children are spending the summer at the home of Mr. Bassett's parents in Santa Monica, and they will remain with them until they return.

Jury Gets Debs Case; Socialist Defendant "Repudiates Nothing"

Cleveland, O., Sept. 12.—The case of Eugene V. Debs, Socialist leader, charged with violation of the espionage law, was given to a jury in the United States district court here today.

His defense consisted of an address by himself yesterday, in which he explained that he was working for the good of the whole world, but as to the charges, he said: "I deny nothing; I repudiate nothing; I retract nothing."

In Judge Westenhaver's instructions to the jury, he pointed out that the crime charged could be committed only in time of war.

"One's political belief, no more than his religious belief, cannot be accepted as an excuse," said the court. Debs listened intently to the charge, and followed the jury with his eyes as it filed out.

Strike Propaganda Is Spread At Salt Lake

Salt Lake City, Utah, Sept. 12.—Hand bills calling for a general strike of world history at international revolution and exploiting pre-german propaganda, have been distributed throughout the city. This was announced by United States attorney W. W. Ray. They call for a general strike, and are said to be similar to those seized in Arizona several days ago.

The source of supplies has not been located, but it is believed that the officials managed to secure numerous samples.

The circulars are signed by the "committee of workers," and set forth a defense of Thomas J. Mooney, under sentence of death in California, for alleged connection with a bomb explosion in 1915.

STRIKING MACHINISTS STILL REFUSE TO RETURN TO WORK

Bridgeport, Conn., Sept. 12.—Five thousand striking union machinists from Bridgeport munitions plant, at a meeting last Wednesday, listened to the words of the president of the international association of machinists, calling on the men to return to work within 48 hours, and then voted unanimously to continue the strike.

Miss Ella Bradna and One of Her Prize Horses.

Licenses Of New Mexico Cars Are Good In El Paso

Business Cars and Trucks Coming Here Regularly Must Have License.

That the policy of El Paso courts officials is to be extremely lenient in enforcing automobile laws as regards nonresidents temporarily sojourning in El Paso, was the statement of both county attorney W. H. Fryer and justice of the peace A. J. Hall today. The latter presides over most of the trials of alleged infractions of the state traffic laws.

Justice Hall's attention was called to the case of J. A. Zeller, a resident of Anthony, N. M., who was fined \$1 and costs, or \$15.00 in all, for not having a Texas license.

Says in Business Here.

"This man," said Justice Hall, "has a business here and is in El Paso to whom he carried articles of commerce, manufactured in a corn of south of the Rio Grande, and he is a partner in the goods here. Both are therefore interested in the business, which is done here, and the car is used in El Paso county for business purposes. He was warned to secure a Texas license and after he failed to do so, was fined."

My policy is to be extremely lenient. In the case of pleasure cars, they have 30 days in which to remain in this county without taking out any license. However, they must register with the state motor vehicle clerk on reaching the city. At the end of 30 days, they may secure a license, but if they do not, they are liable to arrest."

Business Cars Need Licenses.

"In the case of business cars, they are required to secure Texas licenses in such cases as I outlined. If a man comes to El Paso from New Mexico and sells goods to a store here, we do not require him to take out a license, but if he peddles or takes out a license, he is liable to arrest. In enforcing the laws this way, I am merely carrying out the general policy of our state attorney general."

County attorney Fryer said: "In the case of trucks coming to El Paso regularly from New Mexico for business purposes, as in the case of dairy trucks, I believe Texas licenses should be procured. However, I believe in enforcing the laws very leniently in the case of pleasure cars coming here from other states."

Glaring Headlights Offend.

Justice Hall pointed out that New Mexico cars with glaring headlights, while Texas cars have had them removed, have received numerous complaints against New Mexico cars driving on the upper county road with glaring headlights, but none has been filed. He said he was informed that New Mexico would enact a law against these lights.

The justice said he was informed that Texas cars with glaring headlights, while Texas cars have had them removed, have received numerous complaints against New Mexico cars driving on the upper county road with glaring headlights, but none has been filed. He said he was informed that New Mexico would enact a law against these lights.
